

Table 4: Number of inclusion and individual PIV categories reported per article

| Number of PIV Categories Reported per Article | Articles Reporting Inclusion PIVs | Articles Reporting Individual PIVs |
|---|-----------------------------------|------------------------------------|
| 0 <sup>1</sup>                                | 1                                 | 40                                 |
| 1   | 55                                | 33                                 |
| 2   | 41                                | 16                                 |
| 3   | 3                                 | 6                                  |
| 4   | 0                                 | 3                                  |
| 5   | 0                                 | 2                                  |
| 6   | 0                                 | 0                                  |
| TOTAL # of articles (N=100)                   | 100                               | 100                                |

---

<sup>1</sup> This article reported on individuals connected to multiple historical and international mass unemployment events and thus included no PIVs per our codebook. (DAVIES, HOMOLOVA, GREY & BELLIS, 2019).
